**We the undersigned agree to this platform:**

1. **Talks on the establishment of a Palestinian State will cease**, effective immediately.
2. **Israel will declare its right to exist within its current borders**, with no further surrender of territory, including the Golan Heights. After the lesson of the Gaza withdrawal, Israeli citizens will be assured, once and for all, that they will never again be forced from their homes. Israelis will continue to establish and develop communities wherever they so choose.
3. **Israel will annex Judea and Samaria**. Annexation is a key element of this plan, to be applied immediately. The annexed areas will include all of Judaea and Samaria except for Arab population centers such as Ramallah, Nablus, and Jericho, which will be designated as Arab Self-Ruled Areas. Arab residents of the annexed areas will be offered Israeli citizenship with all due rights and obligations under Israeli law.
4. **Israel and its neighbors will jointly bear the costs of relocation**. Israel will work together with neighboring countries to create a joint compensation and relocation program for those individuals residing in the annexed territories who choose to relocate.
5. **Arab self-ruled areas**. The population of the above-mentioned areas excluded from annexation will enjoy self-rule and eventually be confederated with Jordan. These territories will include access ways that ensure uninterrupted contiguity, so that life in these areas is conducted independent of Israel. The population of these areas will also have access to Jordan via a corridor that runs through the Jordan Valley.
6. **Citizenship**. All citizens, Jewish and Arab alike, will have equal rights and duties under Israeli law. Every citizen, including Arabs, must perform compulsory IDF or alternative civilian service.
7. **Any threat to Israel and Israeli citizens will be dealt with decisively**. Gaza, with the current buildup of terror and hostile acts, will be the first issue dealt with. Israel should not tolerate its citizens being under ongoing attack. Gaza has declared war on Israel, and Israel needs to respond swiftly and decisively. Unlike how the Hezbollah was handled during the 2nd Lebanon War, all sources of hostility in the Gaza Strip must be removed.

*Based on the Biblical Platform above, I pledge to actively support and recognize this as the preamble to unlocking the title deed to the Jewish inheritance.*
